

LINK AND LEARN

I N F I N I T E L Y L A R N I N G

Create new partnerships and join study visits in Finland

Visit Finnish schools and increase your knowledge of the famous Finnish education system and educational practices

Link teachers and school leaders in different educational systems and get acquainted with new approaches in learning

Learn new ideas through professional intercourse

Your learning grows and becomes deeper by sharing mutual ideas in different systems

Here's one example how we carry out the visits:

Preliminary workshop in the country where visitors come from

Participation in study visits and getting to know the Finnish education system and what is behind the Pisa:

- visiting Finnish schools
- observing lessons in schools
- getting acquainted with the Finnish education structure and leadership practices
- participation in educational lectures given by Finnish education administrators, specialists and school leaders, teachers and representatives of education faculties at the university
- getting to know the Finnish culture and history, for example a guided tour in the centre of Helsinki

Detailed schedule and programme will be sent to the participants before the visit

We welcome your own suggestions as to the visits and formulate the programme according to the customer's wish.
